

Library

The last 371 items have been added to the library and that means the entire library is now available at <https://rootslibrary.libib.com>.

A) Accessing the on-line library

- a. If you accessed the library last year and have completed your Roots registration for this year, you can simply use your same login, password or library card.
- b. If you were signed up with Roots last year, but never accessed the library and now you would like to, follow these steps:
 - i. Go to <https://rootslibrary.libib.com>
 - ii. Enter the email address you used when registering with Roots.
 - iii. Click on "Need password"
 - iv. A password will be sent to the email address with which you signed up.
 - v. Use the password to get into the system.
 - vi. Once in the system, you can browse the material that is available, put books on hold, change your password by going to the patron page, etc.
- c. If you are new to Roots and would like to use the library, you will need to be patient. Your information still needs to be loaded onto the system. Watch for an update email on google talk for when that is complete.

B) Material pick up

- a. All material that has been placed on hold will be checked out to you and available at the Roots meetings. **The only way to access the books is to place them on hold first; they will be pulled for you.**
- b. We are currently looking at the logistics of separate pick up points for those who cannot attend the meetings. At present, material can be picked up from Alisa Weening's house (Airdrie) and Tammy's house (north Calgary), provided prior arrangements have been made.

C) Guidelines

We are still working out many of the kinks in the system, so your patience is appreciated.

- a. If you have books on hold that other people also want, the hold lasts through the Roots group meeting. If you don't pick up the books, those next in line will receive the material. It will not be held for you for another month.
- b. Holds function on a first come, first serve basis and are based on date.

D) Questions
